

The Challenge

- Your developers spend 30-40% of their time on infrastructure instead of building product
- A single DevOps person is a single point of failure for your entire cloud operation
- Cloud costs keep climbing with no visibility into what's driving the spend
- You need enterprise-grade operations but can't justify a full internal team

Our Solution: Managed AWS Cloud Operations

A dedicated engineering team that runs your AWS infrastructure at a fixed monthly price. Monitoring, incident response, CI/CD, cost optimization, and architecture guidance -- all included.

Packages

PACKAGE	PRICE	HOURS/MONTH	TEAM SIZE	BEST FOR
Safety Net	€990	6h consultation	Standby	Backup for existing DevOps
Essential	€2,000	40 hours	1-2 engineers	Startups, small teams
Growth	€4,000	80 hours	2-3 engineers	Scaling mid-sized companies
Scale	€6,000	120 hours	3-4 engineers	Complex enterprise environments

Optional add-ons: 24/7 On-Call (€2,000/mo) | Solution Architect (€1,000/mo) | FinOps (€500/mo) | DevSecOps (€700/mo) | Extra hours: €70/h

How We Work

1. Free Cost Health Check

We analyze your AWS spend and show savings opportunities. No commitment.

2. Onboarding (2-4 weeks)

Dedicated team maps your architecture, sets up monitoring, documents everything.

3. Ongoing Operations

Proactive monitoring, incident response, CI/CD management, monthly optimization.

4. Continuous Improvement

Quarterly reviews, architecture guidance, and strategic planning.

Why Sonrisa CPS

✓ 300+ Engineer Bench

No single point of failure. Pull in specialists for any technology.

✓ 19 Years in Business

Enterprise clients include Lufthansa, Oracle, Diligent. SOC2/ISO ready.

✓ EU-Based Delivery

Central European team. Same timezone, same work culture, GDPR native.

✓ 10-30% Cost Savings

FinOps expertise that typically pays for the service itself.

✓ No Lock-In

Month-to-month after 3-month onboarding. We earn your trust, not enforce it.

✓ Full Stack Capability

DevOps, SRE, CI/CD, IaC, security, migrations -- not just monitoring.

The ROI Math

Hiring 1 Senior DevOps (EU): €80,000-120,000/year (salary + benefits + recruiting)

CPS Growth Package: €48,000/year for a team of 2-3 engineers, immediate start

You save €30,000-70,000/year AND get a team instead of a single person.
